

**Emergency Use of Salbutamol Inhalers in College**

St John Plessington Catholic College

**Reply slip to be returned to Reception**

The emergency salbutamol inhaler should only be used by children, for whom written parental consent for use of the emergency inhaler has been given, who have either been diagnosed with asthma and prescribed an inhaler, or who have been prescribed an inhaler as reliever medication for occasional symptoms or emergencies.

**In the unlikely event that your child has an asthma attack and they do not have an inhaler in school we need your written consent to administer an emergency inhaler.**

- I give permission that in the event of an emergency, and no inhaler being available, an emergency salbutamol inhaler can be used by my child in school.
