Cammell Laird – Engineering – Year 11

Cammell Laird has both a rich history and an exciting future, working on a range of ships and vessels, in the most unique and diverse ways. With promising opportunities for progression, Cammell Laird has worked with The Engineering College for over 20 years to train apprentices as an essential part of the workforce. If you are interested in pursuing an exciting engineering career, then apply to be an apprentice in the new 2022 cohort!

There are **eight apprenticeship pathways** as shown below – only apply ONCE for the trade you want. Multiple applications from the same person will not be accepted, so do your research before applying. There are **44 apprenticeship positions available** – please be aware that the minimum entry requirements are GCSE level 4 or higher in Maths, English and Science.
