

Dear Parents/Carers,

In order to provide our students with examples of a variety of jobs that may be of interest to them in the future, each week in our new 'Careers Bulletin' we will be sending out a brief video clip highlighting a 'job of the week'.

In addition to this, we will continue to highlight (to the relevant year groups) careers related opportunities such as local apprenticeships being advertised/summer school activities with universities etc.

The above information will be shared with yourselves to keep you informed of labour market information and to facilitate discussion with your child, where appropriate, on future opportunities in the world of work.

'**Job of the Week #1**' is detailed below (all students), along with some exciting opportunities (Year 12 only) being offered for this summer by the Liverpool Institute for Performing Arts (LIPA).

Thanks,

Mr Wellens
Careers Lead – HFCMAT.

Job of the Week 1 – ACTUARY;
