JOB OF THE WEEK #7 – GAMES TESTER

<https://www.youtube.com/watch?v=uBx6CXAF0xc>

Please note: following feedback from yourselves, in addition to the JOTW video from MyPath each week, which provides a brief job overview and salary details, we will also now provide a second video (when possible) provided by a company called 'Inspiring The Future'. These short videos and information tabs will provide much more insight into the job itself and provide 'real life' examples. There are hundreds of different roles in most job sectors and therefore the job 'titles' within the videos may vary slightly. The idea is to provide a 'flavour' of what roles are out there and to keep students up to date and informed.

With this in mind, please find below **Tom's story** – Tom is a **GAMES DESIGNER**. As well as the video link, please check out the **additional labour market information** provided, including tasks involved in the job, qualifications required, future employment trends and much, much more. Just click on each tab 'V' to view full details.

Apprenticeships – Year 11

Sulzer Electro Mechanical Services (UK) Limited are currently advertising a Level 3 apprenticeship in engineering. The successful candidate will initially spend the first year full time at college, after which they will complete one day per week in college, along with four days per week working on site at the Bromborough service centre:

<https://www.findapprenticeship.service.gov.uk/apprenticeship/1000055544>

Bilfinger Uk require an apprentice to train in the maintenance, safety and effective operation of plant and equipment. This is a Level 3 apprenticeship and the candidate needs Level 4 GCSEs in English and Maths as a minimum requirement:

<https://www.findapprenticeship.service.gov.uk/apprenticeship/1000056468>

Jienco Limited are looking for an apprentice fabricator/welder to assist in their fabrication and welding operations. This is a Level 3 apprenticeship operating with day release weekly – Level 4 Maths GCSE is an essential requirement for applicants.
